GLASS EXTERIOR STAIR RAILINGS

Architectural safety.
Unobstructed views.

BUILT TO A HIGHER STANDARD.

Part of the homes, businesses,
and projects shaping Georgia.

EXTERIOR GLASS STAIR RAILINGS

1/2-inch structural glass systems
developed for exterior stairways
and built to applicable code
requirements.

Precision measured.
Professionally installed.

Our exterior glass railings are measured
and installed with precision to elevate
architectural design while maintaining
safety, clarity, and long-term durability.

DESIGNED FOR MODERN HOMES.
BUILT FOR LASTING IMPACT.

BALCONY & ELEVATED DECK RAILINGS

Designed around the way Georgia homes are lived in.

From lake homes and mountain retreats to contemporary new construction, our structural glass railing systems create uninterrupted outdoor living while preserving the views that define each property.

ROOF DECK & ROOFTOP GLASS RAILINGS

Made to enjoy Georgia living.

THE VIEW WAS ALWAYS THE FEATURE.

Trusted by homeowners, builders,
and architects across Georgia for
architectural glass railing systems
built to the highest standard.

POOLSIDE GLASS RAILINGS

AGI
APEX GLASS INDUSTRIES

PROTECTION WAS *ESSENTIAL*.
THE VIEW WAS *NON-NEGOTIABLE*.

EXPERIENCE SHOWS IN EVERY DETAIL.

Every pool environment is different. Our systems are engineered around each property's layout, grade changes, drainage, safety requirements, and architectural intent—creating glass railings that feel like part of the original design rather than an afterthought.

CUSTOM ENGINEERED

Tailored to your property's needs and design.

SAFETY FIRST

Tempered glass systems designed to meet code and exceed expectations.

LOCKABLE OPTIONS

Self-closing, self-latching, and lockable glass gates available for added peace of mind.

PREMIUM MATERIALS

High-quality tempered glass and marine-grade hardware built for lasting performance.

IN-HOUSE EXPERTS

Designed, fabricated, and installed by our experienced team—never subcontracted.

LICENSED & INSURED • WARRANTY-BACKED • BBB ACCREDITED • NGA MEMBER

BEST OF GEORGIA GLASS CONTRACTOR 2024 & 2025

STRUCTURAL EXTERIOR GLASS ROOMS

Architectural glass that extends the
living experience outdoors.

YEAR-ROUND OUTDOOR LIVING

Architectural glass designed around the home.

INSTALLATION & ENGINEERING

Designed Before It's Installed.

Every successful glass railing
begins long before installation day.

Every project begins with design—
not fabrication.

Our in-house design team works directly
with homeowners, custom builders,
architects, designers, and contractors
to develop systems that complement
the architecture, meet code
requirements, and install exactly
as intended.

Before a single piece of glass is
fabricated,

every project is measured, drafted,
reviewed, and engineered around
the specific conditions of the property.

Because no two homes—
and no two projects—
are ever the same.

Included with Every Project

Professional site measurement & field verification

Certified drafting & detailed shop drawings

In-house design consultation

Hardware selection & mounting recommendations

Engineering coordination, when required

Code-compliant system layouts

Precision fabrication to approved drawings

Installation by Apex technicians — never subcontractors
